iLuMinA SOLUTIONS, INC. WALKED FOR THE CURE!

2010 Susan G. Komen Global Race for the Cure

WASHINGTON, D.C. - June 5, 2010- iLuMinA Solutions joined more than 40,000 participants that came together for an inspiring day on the National Mall for the 2010 Susan G. Komen Global Race for the Cure. A group of our team members and their guests walked or ran in support of this great cause.

Our team members raised \$3,370 that will help fund breast cancer programs for the medically underserved throughout the National Capital Area and abroad. Now in its 21st year, the millions raised by the Susan G. Komen Global Race for the Cure continue to make a significant year-round impact on the National Capital Area. Up to 75 percent of funds raised go to support local education, outreach and

patient/survivor support efforts. The remaining 25 percent help Komen's work around the globe to share knowledge and experience, and to fund education and breast health services in regions where few exist.

"This was our first time participating in the Susan G. Komen Race for the Cure, and we are very proud of our team's support. We know that through the generosity and devotion of our team members we are helping to make a positive impact in the Race for the Cure" added iLuMinA Solutions' partners.

iLuMinA Solutions will continue supporting this cause and others with their community services program called iLuMinAide, which focuses on supporting the needs of the community by becoming actively involved in charity and volunteer work within the geographic areas the company supports.
